RUTLAND

The publishers of this Directory consider it advisable and desirable to set forth the following paragraphs, in as simple and attractive a manner as possible, to enable the readers of these descriptive pages to comprehend as many of the outstanding features of Rutland as limited space permits. The local resident, the visitor, and the distant reader about Rutland wish to gain an impression of Rutland as well as to have at hand a statistical reference regarding the city and its people. It is the publisher's aim to portray as much of Rutland's charm and greatness as is consistent with facts. We believe with John Cotton Dana, the great librarian that "Good citizenship springs from a knowledge about one's own community." The teachings of the City Map and the City Directory about localities, districts, street locations, street changes, growth of sections and general city changes are of great importance to property owners, old residents, new residents and school children. Racial characteristics of names in the Directory enable the consultant to gain a very comprehensive knowledge of the inhabitants of the city and many other educational facts. Notable men all through history have contributed their philosophy as to the value of knowledge about the home town. Here is one from Abraham Lincoln: "I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him." In studying the following, remember that the Rutland City Directory disseminates this information far and wide where this Directory represents Rutland in the Free Directory Library Exchange System of North America. The Rutland City Directory, with over 420 closely printed pages, is the City of Rutland in book form; its family and social life, business and industrial life, is portrayed in great detail. The publishers invite and accept constructive criticism and suggestions for the improvement of the Directory for the benefit of Rutland and all interested.

For further information regarding Rutland, address Rutland Chamber of Commerce, or H. A. Manning Company, Publishers of this Directory.

LOCATION—Rutland, known as "The Marble City," is located midway of the State north and south. It is about 15 miles from the western boundary and has many of the characteristics of the great neighboring State of New York. Distances as follows to important eastern points: New York 235 miles, Boston 167, Montreal 165, Philadelphia 325, Baltimore 420, Burlington 68, Montpelier 66, Bellows Falls 51, Glens Falls 50, Bennington 57, North Adams 77, Schenectady 95, Ogdensburg 224, St. Johnsbury 106, Brattleboro 77.

TOPOGRAPHY—Probably no important city in New England has so grand a setting as Rutland. The city lies among picturesque lakes and streams, the encircling mountains are near, yet far enough away to give plenty of building room and the broad valley running north and south for many miles is one of the beauty spots of America. Noted mountain peaks of the Green Mountain and Taconic ranges can be seen from high parts of the city. The highest peak visible is Mt. Killington, over 4,241 feet. City is 600 feet above sea level. Contains land area of 5,335 acres, water area of 100 acres.

HISTORICAL—The history of Rutland vies with any city in the land for interest. It was settled in 1761, and by 1774 there were 35 families. In common with all frontier settlements it suffered from the depredations of the Indians, and also from the Colonial and Indian Wars. Probably named after Rutland, Massachusetts, because the first grantee of the charter for township was a John Murray from that town. Incorporated a city in 1892.

Rutland Directory 1944

RECREATIONAL—Rutland is happily situated for the health and pleasure of its citizens and visitors in their leisure hours, and Rutland is in the midst of an outdoor country of great appeal. It is located in a broad valley, and looking to the east is the incomparably beautiful Green Mountain range, with its Killington, Shrewsbury and Pico peaks forming a most fascinating sky-line. To the west are more unusually beautiful mountains, Bird Mountains and the northern end of the Taconic Range, and to the north a broad valley reaching into the Champlain valley, also to the south an unusually beautiful valley running into Massachusetts and the Berkshires. From any high point in the city of Rutland can be seen the high points of Taconic range to the southeast, which really separates Vermont from New York state.

It is probable that no place exists in northeastern United States with more natural advantages for outdoor sports and recreation. In the summer the atmosphere is buoyant and healthful and lends to physical activities, whether on the golf course, tennis courts, or base ball parks. There is also mountain climbing to be had within a few miles of the city. The

trail to Mt. Killington, over 4,200 ft. in height, is one of the notable mountain climbing stunts of western New England. For lesser climbs there is Shrewsbury over 3,700 ft. and Pico over 3,900 ft., and the trails in the Green and Bird Mountains. Lake Bomoseen is also available to Rutland residents and visitors, at a distance of about 10 miles, and is a fine body of crystal clear water, some 8 miles in length. Lake Dunmore, 20 miles north of the city, on U. S. route 7 is also a Rutland recreational attraction, for camping, boating, and bathing. There are other smaller lakes not far distant from Rutland, and easily accessible.

Of particular interest to outdoor sports lovers is the proximity of the "Long Trail," which passes within 15 miles of Rutland, doubling along the ridge of the Green Mountains, and crossing the following highways: 11 east of Manchester Center, 103 east of Wallingford, U. S. 4 east of Rutland and Mendon, and 115 east of Brandon, also an unimproved highway east of East Clarendon at Cold River. This trail skirts the peaks of little Killington and Killington, little Pico, and Pico. This is one of the most famous trails in eastern North America, and has a large number of hikers annually. Rutland is one of the supply points on this trail. For the past few years there has been agitated a sky-line highway over the Green Mountains that would pass to the east of Rutland near the route of this Long Trail and would bring many visitors to Rutland. There is a winter sports area on Pico peak much frequented by Rutland ski enthusiasts.

INDUSTRIAL—Rutland leads the State in industry. In 1940 there were 39 major plants making a variety of more than 50 products valued at over $7,000,000. Employing over 2,000 with a payroll of more than $2,500,000 annually. Materials used annually cost $3,000,000. In the Greater Rutland industrial district there are 113 plants with 5,112 employees, and a payroll of $7,000,000, value of products annually $20,000,000. The leading products are antiseptics, medical products, awnings, flags, barrels, books, confectionery, cement, electrical parts for airplanes, tile, dairy and creamery machinery, women's clothing, fire clay, roof cement, shirts, collars, ice cream, printing, maple sugar utensils, marble, mattresses, railroad car repairing, sand pumping machinery, scales, trucks, refrigerators, beverages, medical bandages and pads, steam boilers, iron work, stone working machinery, tin cans, wood working materials, granite, slate, garden tools, toys, artificial stone finish, iron castings, fruit packing, clothes pins, threshing machines, saws, dairy products. The quarrying of marble, slate, lime, talc, soapstone and fire clay is extensively carried on in the Rutland district. Agriculture, fruit raising and dairying are important in the county. There are over 45,000 farm animals in the county; 92% of the labor supply is native born. Available industrial sites are of the best and on trunk line railroads.

FINANCIAL—Rutland has 5 banks and 1 co-operative bank. There are 2 national banks with capital and surplus of over $1,000,000 and deposits of over $6,000,000; 1 trust company with deposits of over $2,000,000; 2 savings banks with resources of $23,000,000. These make a total of 6 banks covered by this Directory. City real estate valuation is nearly $14,000,000, assessed at about two-thirds value.

EDUCATIONAL—There are 8 elementary schools, 1 high and 1 intermediate, making a total of 11 schools, 2 Parochial. Through a new high school building, provision has been made for growth which is pressing. There are 8 principals and 82 teachers. The schools are managed through a board of commissioners of 11 members elected by the voters of the city. The present enrollment is about 2,200. The parochial school enrollment is over 1,400. RUTLAND

Trading Center for a Population of Over 100,000

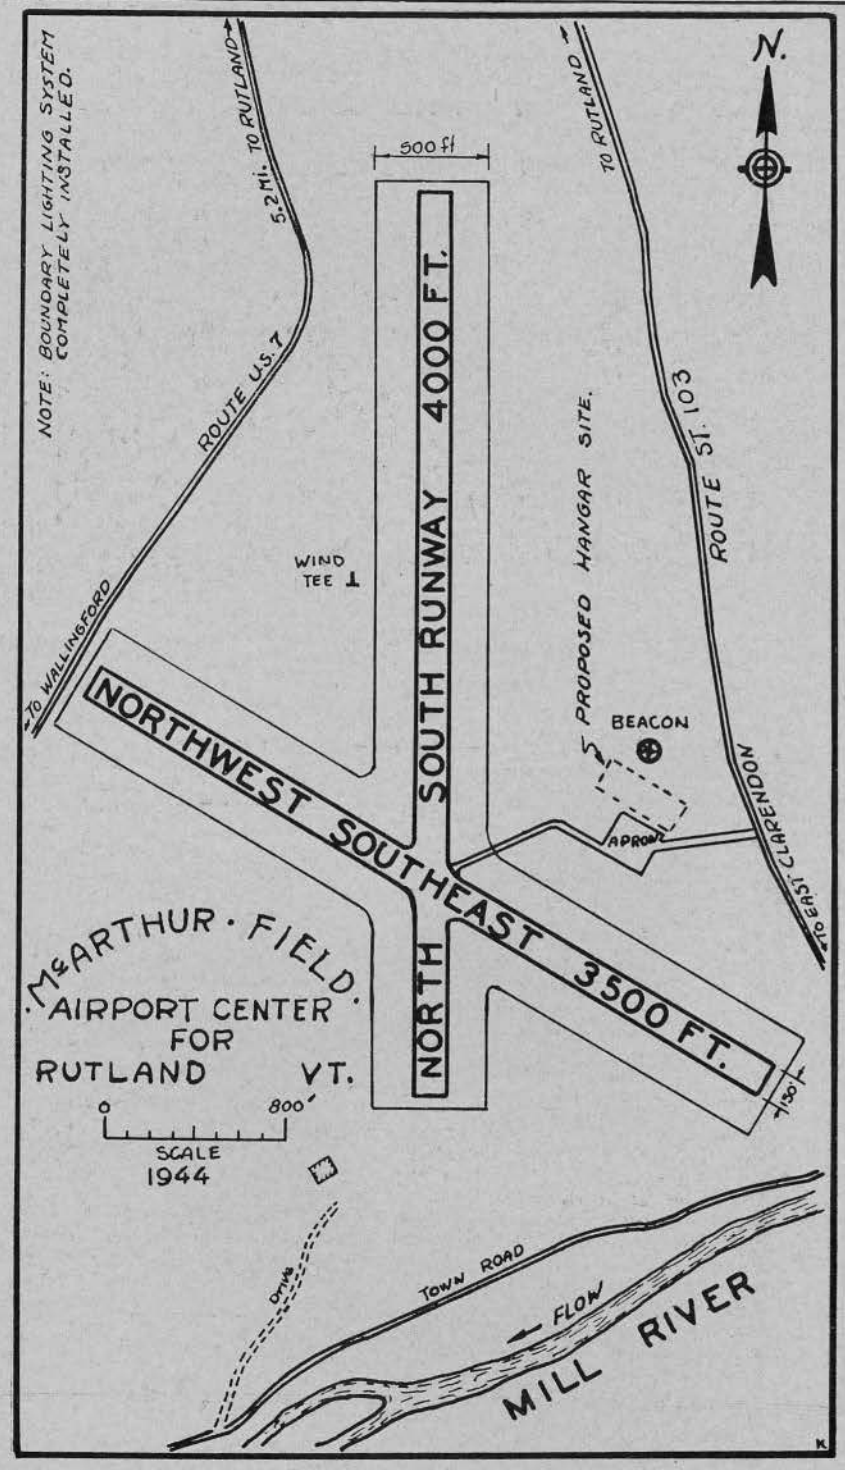

ONE BLOCK OF MERCHANTS ROW

A Charter was granted to the Town of Rutland on September 7, 1761, and Rutland was organized as a City on November 19, 1892. It has a population according to 1940 census of 17,217. City and town 18,567, Rutland, known as "THE MARBLE CITY" is located midway of the State of Vermont north and south. It is about 15 miles from the western boundary and has many of the characteristics of the great neighboring State of New York. Boston is 167 miles, New York City is 235 miles, Montreal is 165 miles, Philadelphia is 325 miles, Baltimore is 420 miles, Burlington is 68 miles, Montpelier is 66 miles, Glens Falls is 50 miles and Albany is 90 miles from Rutland.

Rutland is an industrial center and the largest railroad center in the State, being served by the Rutland and the Delaware & Hudson Railroads. State and Inter-state buses serve this community.

MacArthur Field, Airport Center for Rutland, was officially turned over to the City by the Federal Government late in 1943. Approximately $800,000.00 has already been expended on this airport, and a bond issue of $60,000.00 has been approved by the voters for the construction of a hangar and other necessary services to be built as soon as materials are available. Two leading Airlines operating in Northeastern United States are planning service from this port.

Hotels, inns, tourist homes and cabins, restaurants, grills and diners, for every taste and every purse are located in Rutland. City water supply from pure mountain brooks.

THE FAMOUS PICO PEAK, WITH MT. KILLINGTON LOOMING BEYOND OVER 4200 FEET ALTITUDE

About six hours by train or motor from New York or Boston, hemmed in by noble hills large enough to lend a touch of grandeur to the landscape, small enough to foster a sense of intimacy, lies Rutland in Rutland County, Vermont, truly one of nature's most richly endowed playgrounds, approached by excellent roads from all directions.

Summer and winter the god of sports smiles beneficently upon this chosen land and the ever increasing hordes that are flocking to Rutland and her friendly mountains, lakes and streams for their annual outings.

Rutland is proud of its recreational facilities, highlighted by the famous Pico Peak skiing development, located on U. S. 4, seven miles east of Rutland. Here the skier, from beginner to expert, will find every facility and type of skiing to make his skiing holiday a memorable one. Pico is the largest open slope ski area in the East, located at an altitude above 2000 feet. Because of this unique location skiing is excellent from November to May. The area is served by America's First Alpine Lift.

Rutland has an 18 hole golf course, with 14 other courses within 35 miles of Rutland, which makes this city an ideal spot for golfers. Water sports and fishing in the many lakes and streams, hunting in season, horseback riding and mountain climbing over Vermont's 1000 miles of marked trails, all help to furnish real enjoyment for vacationists. At Pico the skier finds an unusual combination of open slope and trail skiing, including the famous "Sunset Schuss," leading down from Pico Peak, one of the highest peaks in the Green Mountains. This is the widest trail in the East. Instruction in skiing is furnished by the Swiss Ski-School, headed by the well-known Karl Acker and his corps of assistants.

Pico is readily accessible from Rutland, either by auto or bus. There are ample accommodations for skiers in the vicinity of Pico itself, and in Rutland.

THE RUTLAND HIGH SCHOOL

TRAINS AND EQUIPS FOR COLLEGE, INDUSTRY OR BUSINESS WITHOUT FURTHER PREPARATION

The people of Rutland take great interest in and are exceedingly proud of their schools.

In the Public School system in Rutland, there are six elementary schools, one Junior High and one Senior High School. Enrolment in the public schools numbered 1824 during the past year.

The parochial school system consists of three elementary schools, and Mount St. Joseph's Academy. A total of 1204 pupils enrolled in the parochial schools last year.

The Rutland High School curriculum includes pre-induction courses which follow an outline furnished by the Armed forces. These include pre-flight training with practical work on airplane motors, photography, radio, electricity, basic mathematics and science.

The Rutland Defense School offers free instruction to any person 16 years of age or over in machine shop, auto mechanics, mechanical drawing, blueprint reading and welding. Since 1941, equipment valued at $45,000.00 has been acquired and nearly 1000 people trained for pre-induction, pre-employment and advanced work in these fields.

THE BEST ADVERTISING MEDIUM IS THE

CITY DIRECTORY

Because It Is Used The Most To Find Just Such Information You Most Wish To Have The Public Know

FIRST—What line of goods you handle. SECOND—where you are located. Pick up a City Directory anywhere, and almost invariably you can tell who the progressive, up-to-date merchants and professional men are. There are many brands of clothing, shoes, dry goods, groceries, etc. and some prefer one kind, some another. What better place to state your special brands than in the City Directory?

Write your views to them on all important local, national, and international legislation that comes up for vote before them. Express yourself frankly and with force. They need your letters. They are away from home and many times under evil influence. Do not hesitate to write them many times a year strengthening their hand and giving them the advantage of your good judgment and common sense. Guide them with good, old fashioned home-town logic and help save America from pitfalls which daily threaten our constitutional rights.

THE DIRECTORY

is a mirror reflecting every phase of municipal life and progress. Every business should be correctly and completely listed.

ARE YOU?

Rutland Directory 1944

Your City Directory - - -

Do not say a name is not in the Directory because you cannot find it. You may not know the correct spelling under which it is listed.

Do not say a Church, Club, Association or Institution is not in the Directory because you cannot find it. Study the Index to Contents page—the second white page in the Directory and learn where to look.

Do not condemn the authenticity and completeness of YOUR City Directory without giving it a fair trial. Study it and learn its many valuable features with which you are not familiar. It is the greatest example of compiling and indexing, to be found.

Publishers' Notice

The following pages are devoted to the interests of industrial, mercantile and professional Rutland. In these pages will be found announcements of all classes of business houses, placed there for the purpose of enlightening those who would BUY IN RUTLAND.

In no other place will such a huge amount of data regarding Rutland be found. It represents indefatigable labor on the part of the publishers coupled with the progressive and co-operative spirit on the part of those listed herein. Rutland thus writes a milestone in its history that must have far reaching effects in its progress.

If this book serves you and your city you can do no less than give recognition to the men and institutions who have made this possible. Some big men in Rutland have had such a belief in this Directory that they have gladly given of their time and finances that some of the institutions might have registration. To these men in particular we wish to offer our congratulations and gratefully acknowledge their civic spirit.

The Churches

WITH A TOTAL OF FIFTEEN representing all the leading denominations, Rutland is well supplied with churches.

These noble edifices placed at intervals about the city add much to its attractiveness and charm.

It is the belief of many Rutlandians of vision that this full and adequate supply of churches is one of the greatest of the many resources of the city.

That for newcomers it is a factor that makes for the ready assimilation into the religious and social life of the community and hastens the time required to make citizens of the strangers who come to us.

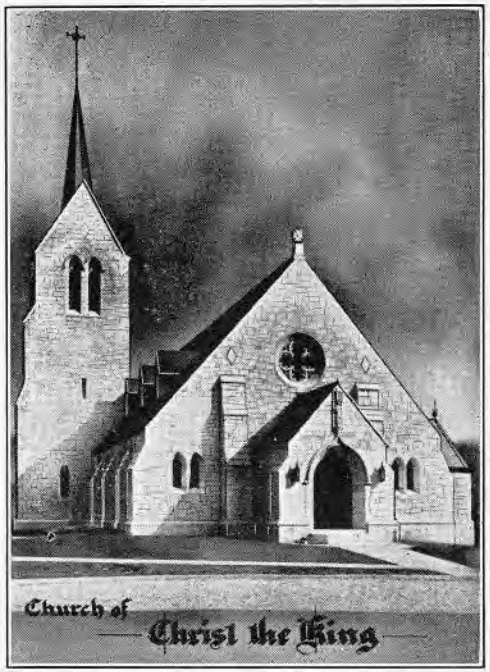

The church of today is the greatest of all institutions for the planting of good thoughts in the minds of the people and stands as the bulwark against degrading influences that surround us.

Therefore let us give a thought to these institutions that form so great a part of our city life and in visualizing our future greatness let us remember their value as

A Factor for Progress

Tourist and Transient Rutland

Certain cities are natural Tourist and Transient Centers. Rutland, because of its location in the long valley that leads from Canada down through Massachusetts and Connecticut to Long Island Sound, and the valleys through which highways and railroads wend their ways from all directions to reach Rutland, is a natural stop-over point for all visiting this section of the country.

Because of this location there has been developed a substantial number of hotels, inns, restaurants, tourists homes, that offer much to the traveler. There are for transients over 1,000 rooms available in this city and Greater Rutland to accommodate the regular run of visitors as well as conventions.

Rutland has more conventions per annum than any other city of like population in New England. The friendly spirit of the hotel and inn service, and the fine food served in the dining rooms and grills always brings a return trip when possible.

There are 9 hotels, 23 inns and tourists homes, 33 restaurants and grills. For many miles out on the highways as well as the rural roads, there are summer cottages, cabins and homes purchased by residents from other states, offering a cosmopolitan trade for the restaurants of Rutland. In the winter season there is the winter sports area that brings throngs to Rutland and which is sure to grow as normal times come again. There is always skiing at Rutland in winter time.

The Rutland Industrial Area

The view shown below gives some idea of how vast and attractive is the Greater Rutland terrain in which industries can locate and expand. For healthful and attractive locations it is doubtful if any section can offer more than Greater Rutland has available. Railroads in five directions. Highways in seven directions. Airways in process of planning. The purest of mountain brook water feeds the reservoirs.
